

HUMAN GROWTH AND DEVELOPMENT

The School District of Monroe is proud to provide educational opportunities in human growth and development. While we encourage each student to participate in these opportunities, we also understand that families may choose to opt out of these opportunities. As a District, we will provide the following options for families to better understand and make an appropriate decision on whether or not their students will participate in human growth and development education:

- An outline of the human growth and development curriculum used at the student's grade level;
- Information on how to inspect the complete curriculum and instructional materials;
- An explanation that no student may be required to take instruction in human growth and development or in specified subjects within the program if the parent/guardian files a written request that the student be exempted; and
- A statement that students exempted from human growth and development instruction will still receive instruction in the subjects under Wis Sec 118.01(2)(d)2c (knowledge of physiology and hygiene, sanitation, the effects of controlled substances and alcohol on the human system, symptoms of disease, and the proper care of the body), unless exempted, and Wis Sec 118.01(2)(d)8 (knowledge of effective means by which students may recognize, avoid, prevent and halt physically or psychologically intrusive or abusive situations which may be harmful to students).
