Varsity vs JV group vs JV2 group

- Lineups and Varsity/JV/JV2 status will be determined by challenge matches
 - **Varsity (4 singles, 3 doubles)**
 - **Varsity lineup will be set 2-3 weeks into season**
- JV/JV2 lineups are very fluid depending on who we play
- We will send out location your student is playing at through sportsYou (day of the match)

Rackets

- Contact Coach Bordner for tips on purchasing a racket
 - **Grip size, head size, weight, etc**
- Strings - Important if you want to play at a high level
 - **We can restring your racket for \$20**
- Racket loaner program
 - **Thank you Booster Club!**

Shoes

- Athletic shoes work!
- Tennis courts are very abrasive and hard on shoes
 - You can buy specific shoes for tennis which will last longer
 - **Asics Gel Resolution 8s and 9s are a great option**

What is the role of parents?

Tennis is **much** different than other sports for parents

- There are no officials - players make the calls and keep score
 - **Parents cannot** interfere with matches
 - No trying to help players determine what score is
 - No trying to help players determine if ball was in or out
 - No yelling during a point
 - You can cheer after points :)
- Tennis has long been a leader in sportsmanship
 - **Teaches students to work out problems together and build rapport with opponents**

Player and Team Goals

- Players will keep individual goals in their player notebook on their phone
 - Check in with your student-athlete on their goals!
- **Team Goals**
 - Continue to build a strong team culture
 - Compete for a conference championship
 - We have 4 straight years of getting a boys tennis player in the state tournament
 - Let's make it 5!

Get out and hit before the season!
